For Vief® the future is no longer tomorrow, but has now become focused on what's happening right here and right now.

We are creating the future with every single knob and handle design that you can find on these pages. The future is in our hands.

Viefe's way —

The teams at Viefe® work like a set of gears, each one pushing the other so that the process of creation of knobs and handles works to perfection.

Los equipos de Viefe® funcionan como un engranaje, empujándose unos a otros para que el proceso de creación de pomos y tiradores funcione a la perfección.

Els equips de Viefe® funcionen com un engranatge, empenyent-se els uns als altres perquè el procés de creació de pomos i tiradors funcioni a la perfecció.

Design

Internal and external designers dream of, draw and then project the shapes of the new products.

Diseñadores internos y externos sueñan, dibujan y proyectan las formas de los nuevos productos.

Dissenyadors interns i externs somien, dibuixen i projecten les formes dels nous productes.

Production

They oversee the process of making the dreams come true. Our knobs and handles are brought to life in their hands.

Se encargan de convertir los sueños en realidad. En sus manos nacen nuestros pomos y tiradores.

S'encarreguen de convertir els somnis en realitat. De les seves mans en neixen els nostres pomos i tiradors.

Finishing

The type of finish can make all the difference. Here we polish, paint and glue and put the finishing touches to each design.

Los acabados marcan la diferencia. Desde aquí se pule, pinta, encola... y se aporta el toque final a cada diseño.

Els acabats marquen la diferència. Des d'aquí es poleix, pinta, encola... i s'aporta el toc final a cada disseny.

Quality

As we are not perfect, this is the department that checks every piece with a magnifying glass to determine which ones pass the quality test and which ones don't.

Porqué no somos perfectos, este departamento observa con lupa cada pieza y determina las que sí y las que no.

Perquè no som perfectes, aquest departament observa amb lupa cada peça i determina les que sí i les que no.

"I pass the requests made by the Company into my cloud storage where they meet up with previous moment of inspiration, images, shapes, finishes... and at a certain point an outline will start to form"

"Las peticiones que realiza la empresa las paso 'por la nube', donde se encuentran con inspiraciones previas, imágenes, formas, acabados... y llegado un punto precipitan en forma de croquis."

"Les peticions que realitza l'empresa les passo 'pel núvol', on es troben amb inspiracions prèvies, imatges, formes, acabats... i arribat un punt precipiten en forma de croquis."

“We’re surrounded by nature. At times we can appear as a bit cold on the outside, but we’re warm once we open up.”

“Estamos rodeados de naturaleza. A veces podemos parecer un poco fríos desde fuera, pero somos cálidos una vez nos abrimos.”

“Estem envoltats de natura. De vegades podem semblar una mica freds des de fora, però som càlids un cop ens obrim.”

Daniel Brokstad

[ENG]

Warmth lies in the essential, going back to what is natural, filling transparent spaces with light, simplifying everything without finding anything missing

[ESP]

La calidez está en lo esencial, en el retorno a lo natural, en llenar de luz espacios diáfanos, en simplificarlo todo sin echar de menos nada.

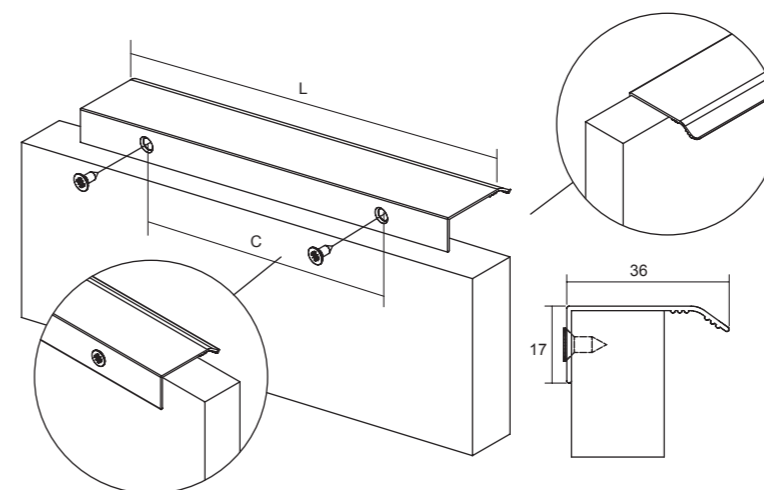

[CAT]

La calidesa està en l'essencial, en tornar a allò natural, en omplir de llum espais diàfans, en simplificar-ho tot sense trobar a faltar res.

“Black is modest and arrogant at the same time”

“El color negro es modesto y arrogante al mismo tiempo”

“El color negre és modest i arrogant al mateix temps”

Yohji Yamamoto

[ENG]

Black imposes,

it contrasts, it isn't tiresome, it combines and it never goes out of fashion. It isn't a colour that comes back in as it never goes out.

[ESP]

El negro impone,

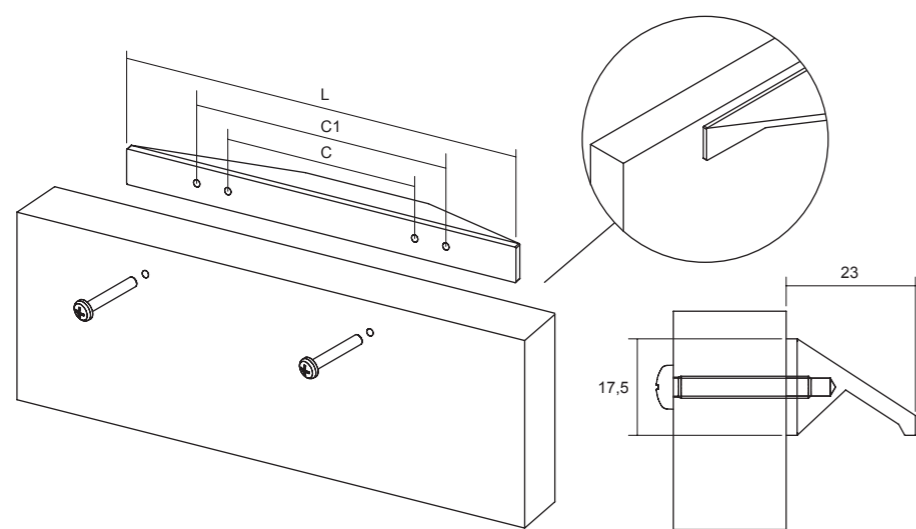

contrasta, no cansa, combina, y nunca jamás pasa de moda. Es un color que no vuelve, porque nunca se fue.

[CAT]

El negre imposa,

contrasta, no cansa, combina, i mai passa de moda. És un color que no torna, perquè mai ha marxat.

_____ vintage

“When I like something, I bury it in the garden. After about 10 years, I’ll dig it up. If I still like it then it means, it’s just fine.”

“Cuando una cosa me gusta, la entierro en el jardín. Pasados 10 años la desentierro. Si aún me gusta es que está bien.”

“Quan una cosa m’agrada l’enterro al jardí. Passats 10 anys la desenterro. Si encara m’agrada és que està bé.”

Thomas Waits

The passing of time puts each thing in its place.

"Adoramos escaparnos de NY y perdernos juntos. Hacemos las millas que haga falta para explorar nuevas ciudades, descubrir entornos de mar y de montaña y contemplar paisajes que nos inspiren."

Tomorrow — Mañana — Demà

The future of our natural surroundings and the durability of our products means we must be really demanding in each process that we carry out. We apply our own methods of control to certify the origins of our materials and the environmental consequences of all stages of production, packaging and shipping.

We work rigorously to guarantee the sustainability and the quality of each step we make. Moving forward positively, that's what we call it.

El futuro del entorno natural que nos rodea y la durabilidad de nuestros productos nos llevan a ser al máximo de exigentes en todos los procesos que llevamos a cabo. Aplicamos nuestros propios métodos de control para certificar el origen de los materiales y el impacto ambiental de todas las etapas de fabricación, embalaje y transporte.

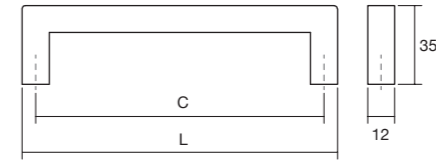

Trabajamos con rigor para garantizar la sostenibilidad y la calidad de cada paso que damos. Avanzar en positivo, así lo llamamos.

Quality ——— Calidad ——— Qualitat

We are continually working to improve, being even more demanding than our customers. Responsibility, quality and rigour are present in all stages of our processes of production and service. We apply quality control processes which help us to exceed expectations and to be better today than yesterday.

Trabajamos para mejorar de forma continua, siendo incluso más exigentes que nuestros clientes. La seriedad, calidad y rigor están presentes en todas nuestras etapas productivas y de servicio. Aplicamos procesos de control que nos ayudan a superarnos y a ser hoy mejores que ayer.

Treballem per millorar de forma contínua, essent fins i tot més exigents que els nostres clients. La seriositat, qualitat i rigor són presents en totes les nostres etapes productives i de servei. Apliquem processos de control que ens ajuden a superar-nos i a ser avui millors que ahir.

Oriol — — Barri

“The first steps are always to take a look at a whole load of images of whatever theme I like. I then think about the type of furniture and space for which the design will be focused on and then the initial sketches can be made.”

“Mis primeros pasos siempre son mirar un montón de imágenes de cualquier cosa que me guste. Después pienso para qué espacio o mueble quiero enfocar el diseño y empiezo a hacer los primeros bocetos.”

“Els meus primers passos sempre són mirar un munt d’imatges de qualsevol cosa que m’agradi. Després penso per quin espai o moble vull enfocar el disseny i començo a fer els primers esbossos.”

Even though his roots are to be found in interior design and jewelry design, his capacity to reinvent himself brought him into the world of product, furniture and lighting design. After having won the first Viefe® design competition he started to work in collaboration with our brand.

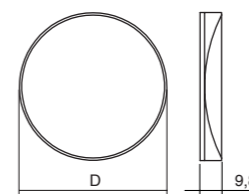

Aunque sus raíces están en el interiorismo y el diseño de joyas, su capacidad de reinención le llevó hacia el diseño de producto, mobiliario e iluminación. Después de quedar finalista en el primer concurso de diseño de Viefe® empezó a colaborar con la marca.

Encara que les seves arrels són en l’interiorisme i el disseny de joies, la seva capacitat de reinenció el va portar al disseny de producte, mobiliari i il·luminació. Després de quedar finalista en el primer concurs de disseny de Viefe® va començar a col·laborar amb la marca.

ROBOTS

On the planet of the robots nobody ever gets bored. When one of them needs a screwdriver, every robot wants to lend him one. If it's necessary, they'll undo hands, legs and arms and then put them back together again. Sometimes they do it right, but occasionally something just isn't quite right...so they'll look at each other with a smile and start to dance.

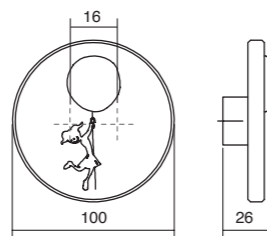

En el planeta de los robots nadie se aburre jamás. Cuando a uno le falta un tornillo todos se lo quieren prestar. Si hace falta, desmontan manos, brazos y piernas y los vuelven a montar. A veces quedan exactos, otras algo no es del todo igual... Entonces se miran divertidos y se ponen a bailar.

Al planeta dels robots ningú s'avorreix mai. Quan a un li falta un cargol tots li volen deixar. Si cal, desmunten mans, braços i cames i els tornen a muntar. A vegades queden exactes, altres quelcom no és ben bé igual... Llavors es miren divertits i es posen a ballar.

MAGIC AIR BALLOONS

One windy day a naughty little boy and girl started to play with a magic balloon. Suddenly the magic balloon started to get bigger and bigger.

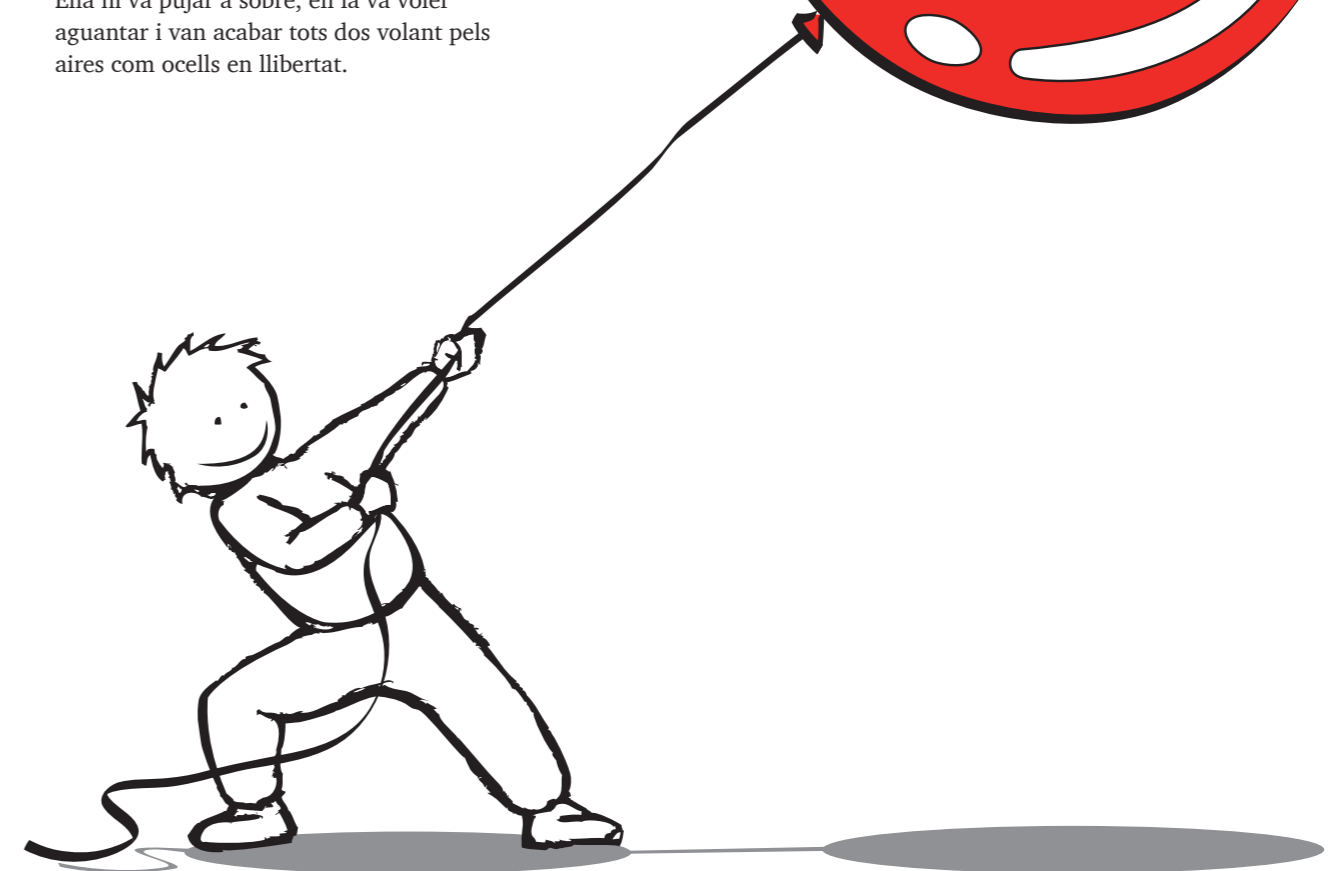

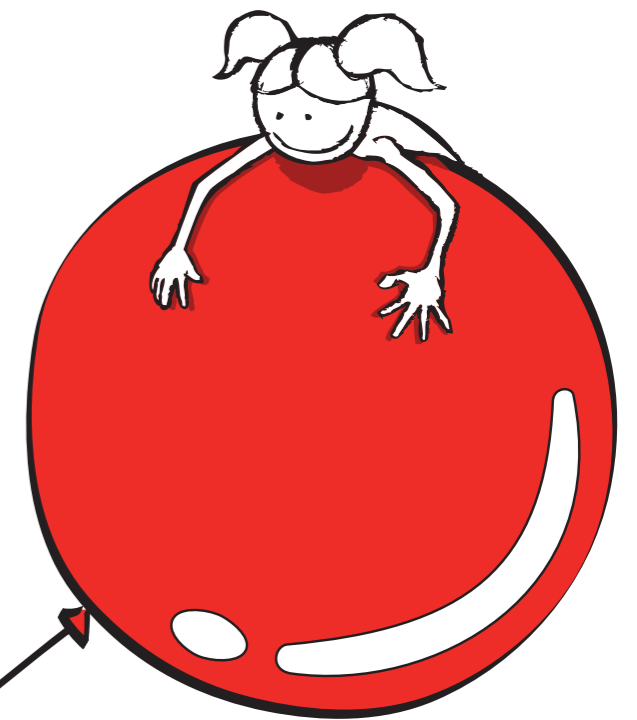

The little girl climbed on top of it while the little boy held on and they both ended up flying up into the air like birds in the sky.

Un día que hacía viento, dos hermanos traviesos se pusieron a jugar con un globo mágico que se hinchaba sin parar.

Ella se subió encima, él la quiso aguantar y acabaron los dos volando por los aires como pájaros en libertad.

Un dia que feia vent, dos germans trapelles es van posar a jugar amb un globus màgic que s'inflava sense parar.

Ella hi va pujar a sobre, ell la va voler aguantar i van acabar tots dos volant pels aires com ocells en llibertat.

"We create a concept that can be expressed through a story, then we develop the characters and we see what the possibilities are to make them using sustainable materials. The rest just flows."

"Creamos un concepto que se pueda expresar a modo de historia, después desarrollamos sus personajes y vemos qué posibilidades tenemos de elaborarlos con materiales sostenibles. El resto sale solo."

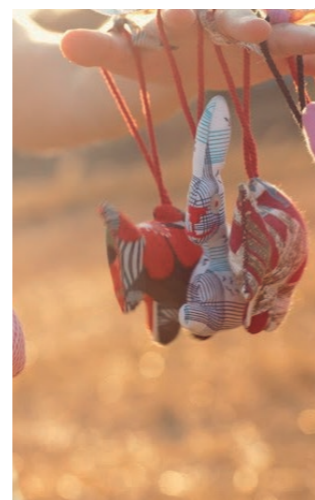

"Creem un concepte que es pugui expressar a mode d'història, després desenvolupem els seus personatges i veiem quines possibilitats tenim d'elaborar-los amb materials sostenibles. La resta surt sola."

Kids' stories are the specialty from this trio made up of Elisabet, Antoni and Marta. As their imagination has no limits, they also work on other projects that combine creativity, recycling and childhood. Through their relationship with Viefe® they have created children's collections full of fantasy.

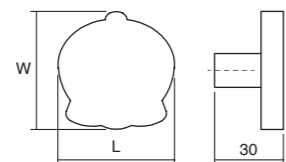

Los cuentos para niños son la especialidad de este trío formado por Elisabet, Antoni y Marta. Pero como la imaginación no tiene fronteras, también trabajan en otros proyectos que unen creatividad, reciclaje e infancia. De su relación con Viefe® han nacido colecciones infantiles llenas de magia.

Els contes per a nens són l'especialitat d'aquest trío format per l'Elisabet, l'Antoni i la Marta. Però com que la imaginació no té fronteres, també treballen en altres projectes que uneixen creativitat, reciclatge i infància. De la seva relació amb Viefe® han nascut col·leccions infantils plenes de màgia.

ANIMAL DREAMS

When animals skip they forget about everything else. They laugh, jump and sing.

They have so much fun that at night, once in bed asleep, they invent new games in their dreams which they'll continue playing the next day once they've woken up.

Cuando los animales saltan a la comba se olvidan de todo lo demás. Ríen, saltan, cantan...

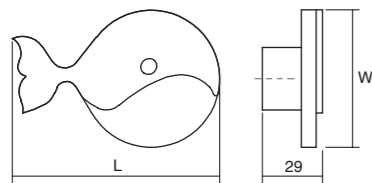

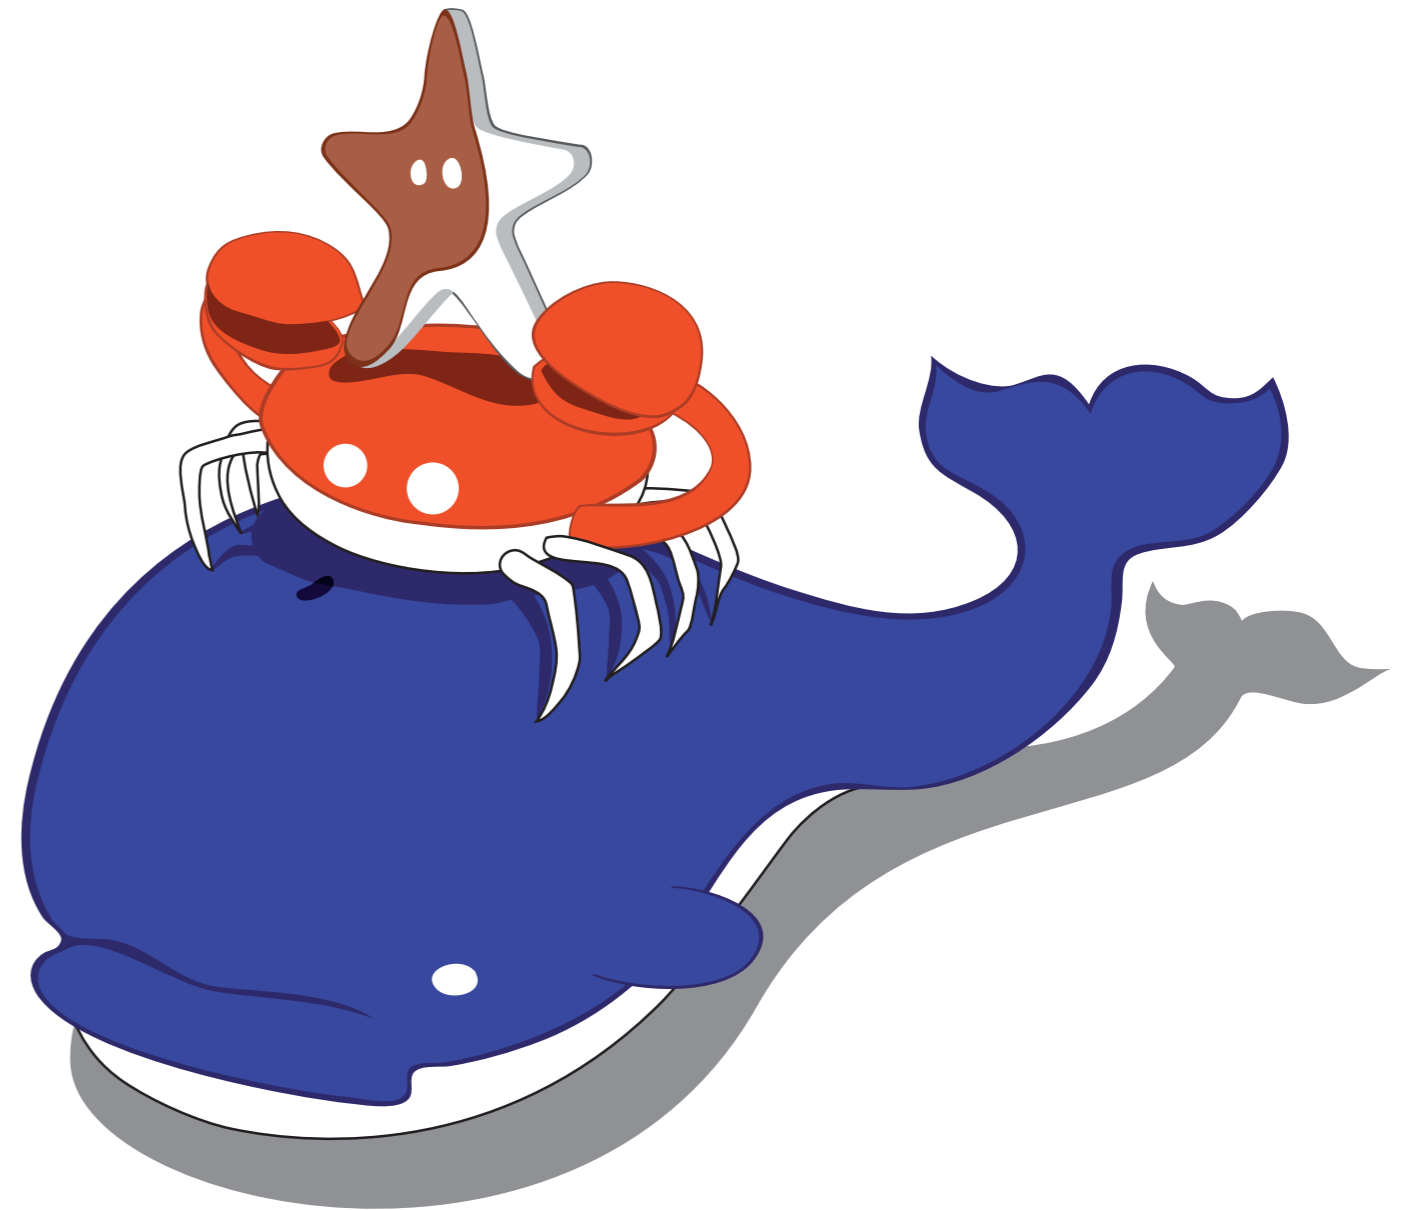

Se divierten tanto que por la noche, a la hora de descansar, en sus sueños inventan nuevos juegos con los que seguirán disfrutando al despertar.

Quan els animals salten a corda s'obliden de tota la resta. Riuen, salten, canten...

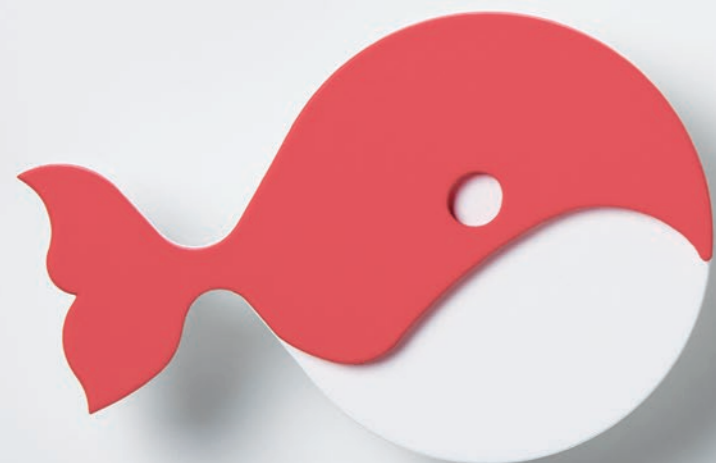

Es diverteixen tant que a la nit, a l'hora de descansar, en els seus somnis inventen nous jocs amb els quals seguiran gaudint al despertar.

THE EXPLORERS

The whale and the crab and the starfish wanted to find out what was hidden beyond the waves. They set off on a journey and travelled across the sandy beach over the mountains through the forest and to far off places. On the way they made so many friends that they never wanted to come back.

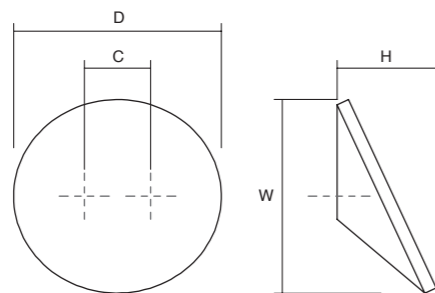

La ballena, el cangrejo y la estrella querían explorar qué había más allá de las olas del mar. Juntos empezaron una aventura que los llevó a viajar por la arena de la playa, entre montañas, sobre los bosques y más allá. Y por el camino hicieron tantos amigos que ya no quisieron regresar.

La balena, el cranc i l'estrella de mar volien explorar què hi havia més enllà de les ones del mar. Junts van començar una aventura que els va portar a viatjar per la sorra de la platja, entre muntanyes, sobre boscos i més enllà. I pel camí van fer tants amics que ja no van voler tornar.
